

1 25g optical module and 6 144

1 25g optical module and 6 144

You can use different levels of 1.25 Gbit/s SFP/eSFP optical modules with GE interfaces and 10 GE interfaces. The wavelength of common 1.25 Gbit/s SFP/eSFP optical modules can be 850 ...

100G to 1.6T Optical Module PHY Product Selection Guide Broadcom's Optical Module PHY portfolio spans multiple technology nodes — 16nm, 7nm and now 5nm, with data rates from 100 Gbs to 1.6 ...

SFP (Small Form-factor Pluggable) transceiver is an important component used for optoelectronic conversion in optical communication systems. It includes a transmitter and a receiver, ...

Boost speeds with an effortless optical module transceiver. Find the best fiber optic module and SFP optical module here.

1x9 BiDi optical modules adopt innovative Wavelength Division Multiplex technology to transmit and receive signals simultaneously through only one single fiber.

This is a standard SFP optical module. It uses a single mode optical fiber and the speed rate can up to 1.25Gbps, transmission distance up to 20 km.

Gigalight's 1.25G SFP series transceiver modules are widely utilized in Gigabit Ethernet, concurrently compatible with 1G Fiber Channel and Synchronous Optical Network (SONET OC-24 / SDH STM-8), ...

Whether you are replacing an existing fiber module or deploying a new optical connection, this 1.25G SFP optical module offers a practical and cost-effective solution for reliable single-mode fiber ...

For better user experience, we highly recommend you to update your device to the latest firmware asap. *Product performance is based on testing in a controlled environment. Your results may vary due to ...

Gigalight's 1.25G SFP series transceiver modules are widely utilized in Gigabit Ethernet, concurrently compatible with 1G Fiber Channel and Synchronous ...

Description The SFP transceivers are high performance, cost effective modules supporting dual data-rate of 1.25Gbps/1.0625Gbps and 20km transmission distance with SMF. The transceiver consists of ...
