

1dB Adjustable Attenuator

1dB Adjustable Attenuator

This device provides a variable fine control attenuation in a very wide frequency range and widely used in electronic equipment. RF attenuators divided in fixed and adjustable.

We offer a robust portfolio of in-stock, adjustable RF attenuators and phase shifters for multiple applications, including test instrumentation, cellular communication, wireless communications, ...

5W SMA-KK step button attenuator with 1dB attenuation across DC-3GHz. Useful for repeatable signal adjustment in RF test setups.

(3) Attenuation range and step size: The attenuation range is 0 to 31 dB. Adjustable 1dB step / retreat. (8) Input and output interface: inner hole of the screw in the SMA interface.

The Keysight 8494H dc to 18 GHz programmable step attenuator offers exceptional repeatability and reliability. It provides attenuation in 1-dB steps from 0 to 11 dB.

Mini-Circuits is a global leader in the design and manufacturing of RF, IF, and microwave components from DC to 86GHz.

Nooelec SMA Attenuator Kit - Bundle of 6pc 2W 50 Ohm SMA in-Line Attenuators Provides Highly Linear Attenuation from 1dB to 42dB in 1dB Increments. 1dB, 2dB, 3dB, 6dB, 10dB

This attenuator allows for a variable attenuation range from 0 to 30 decibels (dB), adjustable in 1 dB steps, enabling precise control over signal levels. It is rated to handle up to 5 watts of power and ...

Attenuators are available in a 1dB to 30dB attenuation range. Our SMD attenuators feature reduced inductance and stray electrical charge storage (capacitance). Improved reliability, increased ...

Mouser offers inventory, pricing, & datasheets for 1 dB Attenuators.
