

AI ranks among the top three in Canada

Overview

Canada ranks third among G7 countries in terms of its level of per capita VC investment in AI enablers, developers, and users, trailing only the US and UK. For the fourth consecutive year, RBC ranked among the top three banks globally for AI maturity in the Evident AI Index. RBC continues to demonstrate global leadership in artificial intelligence (AI), ranking #1 in Canada and third out of 50 global financial institutions for AI maturity in the 2025. CBRE's Scoring Tech Talent 2025 report reveals a reshaped tech map across North America, and Canada's performance is impossible to ignore. For the first time, Canadian tech talent growth decisively outpaced the U. What. When Geoffrey Hinton won the Nobel Prize in physics last year, it was widely treated as a victory for Canada, the country that had nurtured the Canadian computer scientist's pioneering research into artificial intelligence. CBRE's latest annual Scoring Tech Talent report (building on last year's edition) finds Toronto—a hub reputed within Canada for top-tier AI workers—ranking third. TORONTO, Oct.
