

Build a fire bridge

Overview

My goal: to design a pedestrian bridge inspired by a ferocious, tiny creature, the fire ant. One of the incredible abilities of the fire ant is to create a seemingly impossible floating bridge. They lock their legs together, trapping air bubbles beneath. A reminder that the materials may vary depending on your build and stuff. Bloxelize is free for everyone. How hard could it be, right?

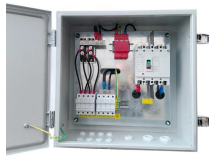

Actually, it turns out there are not a lot of resources showing how to do it yourself. Because I have received a number of questions about how we constructed the bridge, I. Is This The EASIEST Minecraft Bridge Build Tutorial With Campfire And Fence?
