

Build bridges and roads

Overview

For over twenty years, we've been designing and building bridges for homeowners, subdivisions, HOA's, golf courses, farms, hunting clubs, equestrian clubs, and residential developments. We specialize in vehicle and pedestrian bridges. The Build America Bureau has worked with many State DOTs and other project sponsors to deliver new infrastructure and improve roads, highways, bridges, tunnels, and bike/ped infrastructure across the country. This page is designed to provide information to both the public and the contracting community about our projects: projects that are nearing. Understand the intricate collaboration between public and private entities essential for constructing and maintaining our road systems. While all of our vehicular bridges are designed to meet the load requirements for their intended use, several factors go into choosing the right type of construction to meet those demands.

Build bridges and roads
