

CITIC Trunk Optical Cable

CITIC Trunk Optical Cable

OptoTrunk Cables combine multiple cables into one, using high-density connectors like 144F Expanded Beam Optical (EBO) and LC cartridges to enable efficient, space-saving connectivity.

Explore our Fiber Optic MTP®/MPO Cables and find both Trunk Cables and Breakout Cables. Whether your application requires 100 GbE, 400 GbE, or even 800 GbE, you can find what you need at ...

The trunks are fully configurable and available with a variety of cable and connector configurations, perfect for data center applications where high bandwidth is required.

Our pre-assembled MPO female trunk cable tackles high-density data center network connections and combines multiple fiber optic lines into a single, easy-to-manage cable.

These yellow or green fiber optic trunk cables are available in MPO to 24 LC or MPO to 12 LC connector configurations.

Fiber Optic Trunks 100% factory tested for insertion and return loss Made in the USA with Corning® Clear Curve™ Bend Insensitive fiber glass & SENKO LC, SC, or CS connectors Integrated with CS ...

Our fiber optic trunk cables provide high density connections to patch panels, cassettes or cable harnesses. Order a single or multi mode cord online today!

Fiber trunks are pre-terminated cable assemblies connecting switches, servers, patch panels, and zone distribution areas in the data center, or serving as the backbone of enterprise fiber networks.

All cables are labeled (custom label types are available) Note: All LC, MU, and SC couplers are constructed with single mode high quality alignment ceramic sleeves for optimal performance.

The new pulling eye makes it a breeze to install and remove network cables. It's designed to handle pulling tensions of up to 100 pounds, ensuring a smooth and efficient cable installation.
