

Custom-made Egyptian ladder-type cable trays

Custom-made Egyptian ladder-type cable trays

Learn about Rovana Trade, Egypt's premier manufacturer of cable trays and ladders, offering high-quality Hot Dip Galvanized and Electrostatic Painted solutions for industrial and electrical projects.

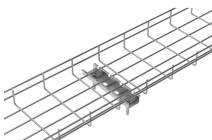

Mild steel is a ferrous metal made from iron and carbon. It is a low-priced material with properties that are suitable for most general engineering applications.

Made of black iron, then electrostatic paint is applied according to demand. Tri-cable is used to feed the main boards and sub panels, as well as lighting circuits.

Rovana Trade is a leading Egyptian manufacturer specializing in cable trays, cable ladders, and electrical cable management systems in Egypt.

After the steel cable tray has been manufactured and assembled, the entire tray is immersed in a bath of molten zinc, resulting in a coating of all surfaces, as well as all edges, holes and welds.

Your guide to cable tray companies which specializes in designing and supplying cable trays, which are crucial for organizing and protecting electrical cables in various industries.
