

Customized Distribution Box Housing

Customized Distribution Box Housing

Customized distribution boxes, also known as custom enclosures, are specialized enclosures designed to house and protect electrical components such as circuit breakers, fuses, and switches.

A real-world prefab housing project showing how E-abel's custom electrical distribution boxes eliminated installation delays, reduced electrical risks, and improved scalability.

All distribution boxes can be customized - in cooperation with our partner Bopla, we are happy to help you with the printing of texts and logos, mechanical processing or the assembly of customer-specific ...

We supply the enclosure housing only. No internal breakers, busbars, meters or wiring are included, so your panel builder stays in full control of devices, certifications, and local code labels.

Custom distribution box enclosures engineered for secure electrical protection. Designed for waterproof performance and long-term reliability in industrial settings.
