

Dry cable and optical fiber communication qualifications

Overview

Most applicants begin with the CFOT certification which is the basic fiber tech certification or CPCT certification for premises cabling. Applicants for specialist skills certifications such as CFOS/D, CFOS/S, CFOS/T, CFOS/C or CFOS/O must have a CFOT certification first. These are generally not. Master the skills required to install fiber optic cabling for indoor and outdoor network and telecommunication systems. The NetCampus Certified Fiber Optics Technician certification is designed to validate fundamental knowledge and practical skills in fiber optics installation, splicing, testing. CFOT® - Certified Fiber Optic Technician - is the primary FOA certification for all fiber optic technicians.
