

Dual-core drop cable terminal box

Dual-core drop cable terminal box

It provides a secure and convenient location for fiber optic splicing, connecting the drop cable and the passive optical equipment of the optical network terminal (ONT) over the optical fiber ...

FTTH Terminal box is used as a termination point for the feeder cable to connect with drop cable in FTTH communication network system. It integrates fiber splicing, splitting, distribution, storage and ...

This mini style distribution box is widely applied in the FTTH network to connect drop cable and ONU devices through fiber port supports splicing, distribution, mechanical connection and wall mounted ...

Our fiber optic terminal boxes come in various sizes and designs, including 2 ports, 4 ports, 8 ports, 16 ports, 24 ports, and 48 ports, providing flexibility for different ...

The FTTH fiber panel box provides superior protection as the main function of the ...

The FTTH fiber panel box provides superior protection as the main function of the panel is to fix the module, protect the cable at the information outlet, and play a role similar to a screen.

The 2 port surface mount fiber enclosure serves as termination point designed to joint drop cable and pigtail in home or office for wall mount or surface mount installation. It fully supports mechanical/fusion ...

The 2 Cores Fiber Distribution Box (FDB-102A-1) IP-55 SC Connector PLC Splitter is a compact and rugged outdoor enclosure designed to provide a safe and secure environment for fiber ...

This 2 port indoor fiber termination box supports up to 4 fiber core splices and 1x2 optical signal splitting, and can be easily wall-mounted, offering a reliable and ...

*For home or work area (FTTD) fiber interface;
 *Connecting type: SC, LC with common model adapters; *Using high-quality ABS material, has a certain fire resistance; *With dustproof device to prevent dust ...

Our fiber optic terminal boxes come in various sizes and designs, including 2 ports, 4 ports, 8 ports, 16 ports, 24 ports, and 48 ports, providing flexibility for different applications.

This 2 port indoor fiber termination box supports up to 4 fiber core splices and 1x2 optical signal splitting, and can be easily wall-mounted, offering a reliable and compact solution for low-density fiber network ...

CommScope offers a complete line of easy-to-use access terminals, copper and fiber splice closures, patch closures and accessories to speed deployment.
