

## Estonia fiber optic cable cut

### Overview

On 17-18 November 2024, two submarine telecommunication cables, the BCS East-West Interlink and C-Lion1 fibre-optic cables, were disrupted in the Baltic Sea. The incidents involving both cables occurred in close proximity to each other and near-simultaneously, which prompted accusations from Finnish authorities took control of the Fitburg and escorted it to the port of Kantvik after it damaged an undersea cable. Image: MKFI, Public domain, via Wikimedia Commons For Finnish authorities, 2025 ended dramatically. On the very last day of the year, at 4:53 a. In addition, an underwater electricity cable and a gas pipeline have been cut by a ship anchor.
