

# **Estonian Fiber Optic Temperature Sensor Factory**

## Estonian Fiber Optic Temperature Sensor Factory

Evikon MCI specializes in the development, manufacturing, and marketing of sensor-based electronic measurement instruments, focusing on various environmental parameters such as temperature, ...

Our production facility in Tallinn, Estonia, is the largest fiber optic termination house in Scandinavia and the Baltic.

Optocon's fiber optic temperature sensors offer complete immunity to RFI and EMI emissions with high temperature operating capability, intrinsic safety, and non-invasive use. The fiber ...

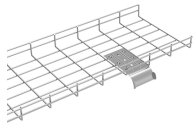

Micronor Sensors offers a complete range of fiber optic temperature sensors, probes and interfaces for high precision temperature measurement in challenging environments.

Optocon's fiber optic sensors offer complete immunity to RF and microwave radiation with high temperature operating capability, intrinsic safety, and non-invasive use.

Optocon's fiber optic sensors offer complete immunity to RF and microwave radiation with high temperature operating capability, intrinsic safety, and non-invasive use. The probes are also ...

Temperature control is crucial in many industrial processes. Our FOTEMP fiber optic temperature monitoring devices deliver reliable performance even in environments exposed to microwave ...

Find and discover Temperature Sensor manufacturers and suppliers for all products in Estonia, featuring details on their shipment activities, trade volumes, trading partners, and more.

Detailed info and reviews on 25 top Manufacturing companies and startups in Estonia in 2026. Get the latest updates on their products, jobs, funding, investors, founders and more.

Distributed Temperature Fiber Optic Sensor Cables (DTS) This technology makes use of fiber optic sensor cables, typically over lengths of several kilometers, that function as linear temperature ...
