

Greece Aggregation Switch 40G

Greece Aggregation Switch 40G

Supporting a range of interface speeds (including 1Gb, 10Gb, 25Gb, 40Gb, and 100Gb) all in a compact 1U form factor, the VSP 7400 Series can be flexibly deployed in either core and aggregation or spine ...

FS 40Gb Switches offer high bandwidth, network virtualization, and redundancy, ensuring efficient deployment for campus core and distributed networks.

Suitable for SME network core and large-scale network aggregation, 20 x 10GE ports and 4 x 25GE ports for flexible access, 2 x 40GE ports for high-performance uplink. The VSU connects to ...

Anoatech offers standard-form-factor 10G Layer 3 managed core/aggregation Ethernet switches, featuring versatile port combinations of 2.5GE, 10G, 40G, and 100G.

MES5448 switches are high performance devices with 10GBASE-R and 40GBASE-SR4/LR4 interfaces that can be used as aggregation or transport switches in carrier networks and as Top-of-Rack or End ...

Mellanox's SX1036 Ethernet switch is the ideal switch for a variety of applications. With 36 ports that can operate at 1GbE, 10GbE, 40GbE or 56GbE, a 4Tb/s capacity, low power consumption, and compact ...

The 40G fiber aggregation switch with 100G uplinks adopts the benefits of the cloud with simplified management, reduced complexity, and network-wide visibility.

Equipped with all-fiber ports, Aggregation Series Switches deliver up to 25 Gbps. With features such as Static Routing, DHCP Server, ACL, IGMP Snooping, STP, LAG, and centralized cloud management, ...

1.8 Tbps high-density 100G/25G Layer 3 Etherlighting™ aggregation switch with MC-LAG support for high availability system design.

The switches are designed for carrier/enterprise aggregation or small data center top-of-rack. The ECS5520 series is an ideal solution for traditional three-tier aggregation or core topologies and ...
