

How to Choose a Router Model with Fiber Optic Support

Overview

The following selections emphasize Wi-Fi 6/6E and 7 capabilities, multi-band operation, and strong security features to maximize fiber connections from providers delivering gigabit and multi-gig speeds. Each pick is suitable for busy households, gaming, streaming, and smart devices. A fiber-optic connection is the best choice for fast home internet as it has a number of advantages compared to traditional copper cables, such as faster speeds and less interference. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. I worked with the Cybernews research team to review and compare different routers and give.
