

Industrial Ethernet Optical Path Switch Intelligent Three-Year Warranty

Industrial Ethernet Optical Path Switch Intelligent Three-Year Warrar

Industrial Ethernet Switches RLH Industrial Switches deliver reliable, high-speed network performance for a wide range of utility, security, and automation environments.

The IES3100 Series is a high performance industrial Layer 3 managed switch family engineered for mission critical applications in harsh outdoor and industrial environments. Featuring 8 and 16 Gigabit ...

Industrial unmanaged switches from Phoenix Contact feature variable numbers of ports and a narrow design. We provide unmanaged switches with a variety of functions, depending on the application.

The IGS-6325 Series is ideal for telecom and carrier Ethernet applications, supporting MEF service delivery and timing over packet solutions for IEEE 1588 and synchronous Ethernet.

EtherWAN delivers industrial-grade Ethernet solutions including managed switches, media converters, and rugged network devices designed for harsh environments. Trusted by smart transportation, ...

Built to endure the demanding conditions of factories, transportation infrastructure, grid substations, and other harsh environments, Cisco Industrial Ethernet switches come in a wide range of form factors to ...

Unlike commercial switches, our Industrial Ethernet Switch features a rugged all-metal housing, fanless design, high EMC immunity (per IEC 61000-4 standards), and dual power inputs to ensure 24/7 ...

WAGO's switch portfolio provides scalable Ethernet network infrastructure with excellent electrical and mechanical performance. These rugged devices are designed for industrial use and are fully ...

With over 25 years of expertise, Maisvch offers a comprehensive range of industrial communication products designed to support IIoT and Industry 4.0 environments.

With over 25 years of expertise, Maisvch offers a comprehensive range of industrial communication products designed to support IIoT and Industry 4.0 environments.

Our switches are built for high network flexibility, cyber security and durability and are suitable for use in mission-critical environments.
