

Industrial Optical Cable Connector Specifications and Dimensions Diagram

Industrial Optical Cable Connector Specifications and Dimensions D

Small size (23.8mm plug length) simplified SC plug is designed for equipments inside connection. Refer to page 43 for further information.

DATA CENTER SOLUTIONS ... CONNECTORS AND ADAPTERS ... BACKPLANE CONNECTORS ... OPTICAL SHUFFLING ... RUGGEDIZED SOLUTIONS

Our engineers work closely with your team to find the right solution for the most demanding applications by integrating precision connectors, components, parts, and engineered cables.

Many glass fiber optic cables are available with different glass fiber bundle diameters. Larger diameter bundles contain more fibers to carry light between the sensor and application.

The QBH fiber optic cable is the no.1 fiber interface for industrial high-power fiber lasers. It's a well proven standard compatible with most available tools worldwide.

The connectors are made of a rugged, flame resistant plastic which is good for industrial and other harsh environments. The HFBR-453XZ series connectors are for use with plastic optical fiber only.

Providing a comprehensive line of high-performance fiber optic transceivers, Broadcom's products reliably support a wide range of industrial data networking standards and speeds.

US Conec's MMC connector is a Very Small Form Factor (VSFF) multi-fiber optical connector designed for termination of single-mode and multi-mode fiber cables up to 2.5 mm (nominal) in outside diameter.

Our team will make sure the configuration is tailored to your needs and will provide a detailed quote. Email us using the Request a Quote below, or give our team a call.

Adapter or Through-Connector: A device, either mounted on a patch panel or used in-line, to mechanically align, couple and mate or join two plug-in optical connectors of either the same or ...
