

Industry Ranking of Optical Module Companies

Overview

This report aims to provide a comprehensive presentation of the global market for Optical Modules, focusing on the total sales volume, sales revenue, price, key companies market share and ranking, together with an analysis of Optical Modules by region & country, by. This report aims to provide a comprehensive presentation of the global market for Optical Modules, focusing on the total sales volume, sales revenue, price, key companies market share and ranking, together with an analysis of Optical Modules by region & country, by. A few days ago, LightCounting, a well-known market research organization in the optical communication industry, released the latest market report and updated the TOP10 ranking of global optical module suppliers. The figure above illustrates the changes in the list of TOP10 optical module suppliers. The global market for Optical Modules was estimated to be worth US\$ million in 2023 and is forecast to a readjusted size of US\$ million by 2030 with a CAGR of % during the forecast period 2024-2030. The latest data shows that Xutron Technology and II-VI acquired Finisar, the. The rapid development of AIGC has promoted the demand for 800G optical modules, and the entire industrial chain involving optical components, optical modules, and optical

communication equipment is expected to fully benefit.

Industry Ranking of Optical Module Companies

Discover the top 10 optical transceiver manufacturers advancing 400G and 800G modules powering hyperscale data centers and next-generation networking infrastructure.

Recently, LightCounting, a market research institution in the optical communication industry, released the latest version of the 2023 global optical module TOP10 list.

In 2025, as the industry shifts toward 800G, 1.6T, and energy-efficient photonics, a handful of companies are defining the future of this essential ...

The figure below illustrates the changes in the TOP10 list of optical transceiver suppliers over the last 15 years. A majority of the Japanese and US-based suppliers exited this market by 2020, while Chinese ...

This report aims to provide a comprehensive presentation of the global market for Optical Modules, focusing on the total sales volume, sales revenue, price, key companies market share and ranking, ...

The optical modules industry is evolving rapidly, driven by the surge in data center demands, 5G deployment, and cloud infrastructure expansion.

In 2025, as the industry shifts toward 800G, 1.6T, and energy-efficient photonics, a handful of companies are defining the future of this essential technology. Here are the Top 10 leading ...

To help you choose the best partner, this article will analyze and introduce 10 companies in the optical transceiver industry chain for you.

Below are the changes in the global optical module supplier TOP10 ranking from 2021 to 2023, published by LightCounting, a market organization in the optical communications industry:

A few days ago, LightCounting, a well-known market research organization in the optical communication industry, released the latest market report and updated the TOP10 ranking of global ...
