

Installation of expansion bolts for cable tray hangers

Installation of expansion bolts for cable tray hangers

Discover best practices for cable tray expansion joint installation to accommodate thermal changes, ensuring structural integrity and compliance with NEC and NEMA standards.

This document provides details on installing cable trays and their support systems. It includes diagrams showing how to mount cable trays on walls using pre-fabricated flanges or channels.

These clips hold 4" and 6" wide Husky Channel to a lower support channel or bracket and can be used as an expansion guide with a W-5 washer placed under the base.

Installation guide for 9A-6016 & 9A-6017 heavy duty expansion splice plates. Includes gap settings, torque specs, and material list.

General Installation Guidelines: latest NEMA standards and local building codes. Trough tray field support and frequency depends on the weight and construction (splice locations, e bow fittings, etc.) ...

In designing supports for a cable tray system, consideration should be given to the loads associated with future cable additions and any additional loading that may be applied to the cable tray system (e.g., ...

This publication is intended as a practical guide for the proper and safe* installation of cable ladder systems, cable tray systems, channel support systems and associated supports.

These special heavy duty tray hold down clamps and ex-pansion guides are ideal for fastening tray to C-Channels and beams, such as those found on bridges. They are easy to install and reduce field labor ...

Some of these criteria include the required load that the cable tray must support, the distance between the cable tray supports, and ease of handling and installation.

This Installation guide covers the most popular and standard installation questions that may come up. If you have any further questions, please contact our sales team at 888-4WB TRAY for assistance.

Once a few hangers are hung at points along the tray run, a carpenter's string or baling wire strung from end to end will assist in establishing the elevations for the tray supports.
