

Involvement in Oman high-speed optical cable

Overview

The Oman Emirates Gateway submarine cable is a new high-capacity undersea fiber optic cable system designed to directly connect Oman and the United Arab Emirates. It is a joint initiative led by major regional telecom operators and global technology partners. Designed to improve regional and global connectivity, this advanced infrastructure is expected to deliver faster, more reliable. Omantel, the leading provider of integrated telecommunication services in the Sultanate of Oman and a regional leading telecom and technology provider in the Middle East, and du, the leading telecom and digital services provider in the UAE, announced the activation of the Oman Emirates Gateway. Omantel and du have activated the Oman Emirates Gateway (OEG), a 275km international fibre optic submarine cable system that will enhance connectivity between the UAE and the Sultanate of Oman.
