# **Italian Aggregation Switch 400G**

## Italian Aggregation Switch 400G

	<p>The IntellaView 400G EdgeSwitch performs aggregation, filtering, tunneling, Load Balancing, and more for high-demand AI applications and edge computing.</p>
	<p>The AGR560 is a high-performance 400GbE aggregation router that consists of fixed 12 x 400G QSFP-DD (23 W) and 24 x 100G QSFP28 (6.5 W) network interfaces in a 2RU compact design that can be ...</p>
	<p>Arista's switching platforms with 400G capability facilitate the growing bandwidth needs of data centers and high-performance compute environments while reducing initial and ongoing costs compared to ...</p>
	<p>Arista introduces the 7368x4 Series 400G data center network switch. This 400 Gigabit data center switch offers 4X increase in bandwidth density compared to existing 100G 1U switches.</p>
	<p>The S9857 switch supports high-density 800GE/400GE ports, with powerful forwarding capabilities, supporting a maximum of 8 x 800GE OSFP800 and 24 x 400G QSFP112 ports. it meets the ...</p>

	<p>For the most demanding environments the 400G routing and switching platforms provide flexibility and choice for large scale cloud, leaf and spine, routing transformation and hyperscale IO intensive ...</p>
	<p>It supports various configurations and can be deployed as a spine switch for 100/400 GbE interconnects. The switch comes with the Open Network Install Environment (ONIE), compatible with various ...</p>
	<p>FS 400G data center switches offer high speeds and port densities to meet the network deployment requirements of various scenarios and the evolving requirements of next-generation data center ...</p>
	<p>A compact 1U 400G switch built for AI clusters, storage fabrics, and high-speed aggregation, featuring four 400G QSFP56-DD ports, dual 10 Gigabit Ethernet, and RouterOS v7.</p>
	<p>Experience breakthrough switch performance that delivers high capacity, speed, and efficiency. A new modular chassis design supports high-port-density 400G expansion modules. Get a high ...</p>
