

Kyn28-12 High Voltage Switchgear Small Busbar

Overview

KYN28-12 indoor AC armored removable metal-enclosed switchgear is used in three-phase AC power system with rated voltage of 12kV and rated frequency of 50Hz for receiving and distributing electric energy.

Kyn28-12 High Voltage Switchgear Small Busbar

Discover how KYN28-12 armored switchgear delivers 40% less downtime, 50kA fault withstand, and vacuum breaker efficiency. Ideal for substations & industrial power systems.

The busbar adopts heat-shrinkable insulation materials and optimized electrode shapes, with a compact cabinet structure. This switchgear is technologically advanced, with stable performance, reasonable ...

It is applicable for power receiving and distribution in the 3.6-12Kv three-phase AC 50Hz single bus bar and single bus bar sectioning system. It has the functions of controlling, protecting and monitoring ...

It serves as a complete distribution device in single busbar segmented systems, facilitating the reception, distribution, control, protection, and monitoring of electrical energy. This switchgear is ...

The cabinet is connected and assembled by pulling rivet nuts and high-strength threaded connectors, and is divided into four separate compartments by metal partitions, including handcart compartment, ...

KYN28-12 indoor AC armored removable metal-enclosed switchgear is used in three-phase AC power system with rated voltage of 12kV and rated frequency of 50Hz for receiving and distributing electric ...

Low-voltage Switchgear Bridge Support High-voltage Busbar Low-voltage Busbar Intelligent Bus Duct Prefabricated Cabin Box-type Substation High-voltage Switchgear

An armored metal-enclosed digital switchgear for 3-phase AC 50Hz, 3.6-12kV single-busbar systems. Manages energy reception and distribution with advanced control, protection, monitoring.

The switchgear is equipped with high-performance VS1 series medium-voltage AC vacuum circuit breakers and solid-sealed vacuum circuit breakers. The busbar adopts heat-shrinkable insulation ...

The small busbar is insulated with heat shrink tubing to ensure the safe and reliable operation of the small busbar. The small busbar room cover adopts a flip-type structure to facilitate the installation, ...

ZTelec KYN28-12 medium voltage switchgear is designed for 3.6kV, 7.2kV, and 12kV three-phase AC 50Hz/60Hz power systems. It is used to receive and distribute power while offering reliable circuit ...

ZS1) type armoured enclosed switchgear suitable for three-phase AC 50Hz power system, used to receive and distribute electrical energy and control, protect and monitor the circuit. The newly ...

The small busbar is insulated with heat shrink tubing to ensure the safe and reliable operation of the small busbar. The small busbar room cover adopts a flip-type ...
