## Large-span cable trays

## Large-span cable trays

Cable tray systems are the perfect solution for running large quantities of power or data cables overhead or under-floor. Also known as baskets, trunking, or cable ladders, these systems are designed to ...

Long-span cable trays have a larger support span than ordinary cable trays, with a more sophisticated structural design and greater load-bearing capacity.

Match the cable tray system to the environment: solid for full protection, perforated for ventilation, and ladder for heavy-duty long spans. Define tray width and side height by cable quantity, bending radius, ...

SILTEC cable trays, heavy duty type, feature a reinforced construction with zigzag wires down the sides and double wires on the sides and at the bottom, providing these trays with a very high load capacity.

Different from normal cable trays, Large span cable tray has large supporting span with high loading capacities. Large span cable tray is assembled by pultruded FRP profiles.

This product line is designed for applications with extremely heavy loads and long spans. Tray systems are available in lengths of 30, 40 and 50 feet to accommodate 30-50 foot support spans.

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Frequently Asked Questions What is a 10-inch Cable Tray? 10-inch cable tray is one of the cable tray types with a width of 4 inches, and generally used in medium-scale cabling projects. It is frequently ...

aluminum cable tray in 40-foot (12.2-meter) straight sections. These longer-length cable tray sections are ideal for industrial and commercial applications such as roadway crossings and pipe bridges or ...

Large span cable trays are designed to support heavy cable loads across long distances without intermediate supports. Made from high-strength galvanized steel or stainless steel, these trays ...
