

Managed Aggregation Switch

Managed Aggregation Switch

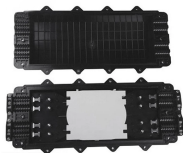

This compact managed Layer 2 switch offers eight 10G SFP+ ports and supports high-bandwidth links, making it ideal for aggregation switching to any UniFi ...

Designed for convenient management, the UniFi Controller software allows admins to configure and monitor the UniFi Switch and other UniFi devices using a graphical user interface.

Faster replacement and priority support, covered for 5 years. High-performance 10G SFP modules for optimal connectivity. An 8-port, Layer 2 switch made for 10G SFP+ connections.

Equipped with all-fiber ports, Aggregation Series Switches deliver up to 25 Gbps. With features such as Static Routing, DHCP Server, ACL, IGMP Snooping, STP, LAG, and centralized cloud management, ...

Provides advanced Security ACLs for improved security, traffic control, and QoS, ensuring efficient and optimized networking.

High-performance aggregation switches designed for industrial and FTTH networks. Support Layer 2/3 management, Gigabit and 10G uplinks, redundant power, VLAN, QoS, and PoE options. Ideal for ...

The GWN7830 series are Layer 3 aggregation switches that allow enterprises to build scalable, secure, high-performance, and smart business networks that are fully manageable and support maximum ...

As the physical part of the aggregation layer, aggregation switches typically play a crucial part in the overall network architecture. So, what exactly is an aggregation switch, and how do you choose the ...

Centralized management that allows you to manage your entire Meraki network stack from campus aggregation to your access layer (wireless APs, switches, firewalls).

This compact managed Layer 2 switch offers eight 10G SFP+ ports and supports high-bandwidth links, making it ideal for aggregation switching to any UniFi device that deploys various interconnect ...

Learn more about the highlights and compatible accessories of the Meraki MS450-12 aggregation switch. Find out how to get yours today.
