

Manufacturer of Hot-swappable Power Distribution Unit Cold Aisle Upgrade Version

Overview

In 2024, Worthington Armstrong Venture (WAVE), a joint venture between Armstrong World Industries, Inc., acquired all of the assets of Data Center Resources, LLC (DCR) related to the design and manufacture of customizable, modular aisle. Hot and cold air containment systems designed to maximize cooling predictability, capacity, and efficiency at the rack, row or room level. Intelligent air containment solutions that protect critical IT equipment and personnel. · Featuring efficient, reliable modular power gear, its standardized design with versatile components is factory-prefabricated. Among other configurations it includes the SMISSLINE TP as a distribution chassis to provide IPXXP protection for the branch MCB and facilitate a 'hot swap' of the branch circuits. The branch circuit management (BCM) module.

Manufacturer of Hot-swappable Power Distribution Unit Cold Aisle U

Cool Shield™ products provide customers with versatile, turnkey aisle containment systems for new or existing critical spaces. Our offerings range from a single row ...

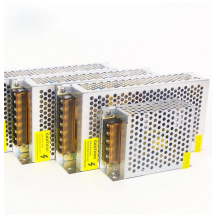

ABB MNS PDU/RPP is the solution for critical load power distribution. Among other configurations it includes the SMISLINE TP as a distribution chassis to provide IPXXP protection for the branch ...

Eaton Hot-Swap PDUs offer dual input cords and a manual bypass switch, enabling live-replacement of standard plug-in UPS systems for maintenance without interrupting connected server or networking ...

Adaptable to hot and cold aisle containment, the Vertiv Aisle Containment system allows you to deploy containment before or after racks are installed to simplify installation and speed deployment of new ...

Cool Shield™ products provide customers with versatile, turnkey aisle containment systems for new or existing critical spaces. Our offerings range from a single row in a server room to entire data center ...

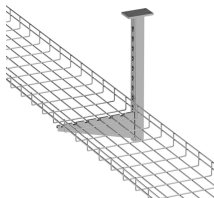

The Vertiv PowerIT rPDU IMD-5M takes power monitoring to the next level with its innovative, hot-swappable Interchangeable Monitoring Device (IMD). Featuring a vibrant LCD ...

Browse our products and documents for APC NetShelter Aisle Containment - Hot and cold air containment systems designed to maximize cooling predictability, capacity, and efficiency at the rack, ...

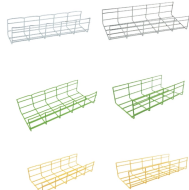

The Vertiv PowerIT rPDU IMD-5M takes power monitoring to the next level with its innovative, hot-swappable Interchangeable Monitoring Device (IMD). ...

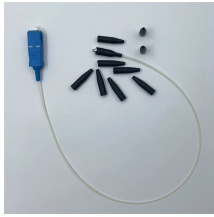

Modular, scalable high-efficiency power: Vertiv APM UPS provides reliable, transformer-free, on-line, uninterrupted power, and KIRK key interlock system for safety.

- High-efficiency integrated power distribution and closed cold and hot aisles, leading in power density and energy efficiency in the industry. • Supports various configurations of single-row or double-row ...

The SOETECK Precision Power Distribution Cabinet with Hot-Swappable Design offers a comprehensive power management solution that supports stable and efficient electrical distribution ...

Custom engineered hot and cold aisle containment solutions that keep your data center running smoothly and make your build-out be more efficient, too.
