

Multi-mode pigtail conversion

Overview

Factory installed connectors at one end make it quick and easy to integrate devices, while exposed fiber at the opposite end allows you to cut the cable to the required length and install splice-on or mechanical type connectors of your choice. The result?

Improved fiber optic adaptability. Leviton fiber optic pigtail kits are a good solution for mechanical or fusion splicing applications. Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. We offer 6-strand and 12-strand pigtail. Vericom Fiber Pigtail Kits are constructed with standard TIA/EIA-604 FOCIS fiber connectors and two meters of Corning® Fiber Cable.

Multi-mode pigtail conversion

Fiber Optic Pigtail assemblies are utilised in terminating fiber optic cables via fusion splicing. Iveonet™ offers a wide range of multimode pigtails, designed and manufactured for demanding network ...

Designed for high-speed multimode applications, our OM3 fiber optic pigtail kits support 50/125-micron fiber networks with enhanced bandwidth performance. These kits are available in 6-strand and 12 ...

Pigtail kits shall be available with 900-micron tight buffer LSZH coating and 250-micron coated fiber. Pigtail kits shall be individually packaged with part numbers, descriptions, optical performance, and ...

Leviton fiber optic pigtail kits are a good solution for mechanical or fusion splicing applications. Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails ...

The short, unbuffered construction of multimode pigtail jumpers makes them the perfect choice for short-distance connections that require more flexibility than the average fiber optic installation.

Fiber optic pigtail for precise, low-loss terminations in fiber networks. Available in SC, LC, ST, and more for singlemode and multimode applications.

A improved design is available for expansion.
The design of these cables uses glass and plastic for real life entry.

Our 12 strand SC-UPC Multimode Fiber Pigtail Kits are available in standard glass, utilize color coding and perform to meet TIA-568-C.3 standards.

Multi Mode Pigtails Alston Systems premium range of pigtails are manufactured with high quality standards and are suitable for telecom, data center and other critical applications. Fiber pigtails are ...

We carry Fiber Optic fusion splicers, cleavers, OTDRs, cables, panels, laser sources, power meters, and many other Fiber Optic products for any project.

Multi-mode LC Pigtail Fiber optic pigtails are used for interconnection and cross-connection in telecom room applications. Machine polished ensuring high quality terminations and performance Traceable, ...
