

New EU distribution box loc

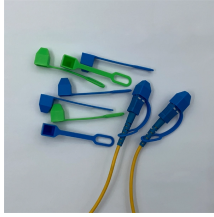

Overview

Manufactured from durable polypropylene, the Polylok distribution box is built to withstand ground pressure and harsh site conditions. It doubles as an inspection chamber, providing ongoing access throughout the life of the system and reducing call-backs after installation. The Polylok 7-Hole Distribution Box is designed with installers in mind, offering a straightforward, reliable solution for percolation area installations on septic tank and wastewater treatment systems. It provides consistent, even distribution of treated wastewater and helps ensure long-term. We set our own Everyday Low Prices as well as sale prices, but some manufacturers restrict how retailers display that pricing. In these cases manufacturers require that you take some steps to add the item to your cart or go to checkout to view our final prices when lower than the manufacturer's set. Contractors: Benefit from our individualized pricing. Choose what height you want the inlet or outlet pipes to be. Easily sealed around this inlet and outlet pipes with the purpose made 110mm and 160mm seals with. Euro Containers (also known as Euro sized boxes, Euro crates or Euro stacking containers) are the industry standard for efficient storage, handling, and transport across diverse supply

chains. Their standardized footprints (200 × 150 mm up to 1200 × 400 mm) comply with EURO pallet dimensions.
