

New Fireproofing Technology for Cable Trays

New Fireproofing Technology for Cable Trays

Whether you need certified fireproofing, firestopping, insulation, or photoluminescent safety systems, our team is ready to support your project with rapid response and code-compliant solutions.

UNIFRAX Fyrewrap “Fyrewrap Cable Insulation®” is a thin and flexible insulation material designed to provide fire protection for cable trays and circuits. Its purpose is to ensure the integrity of electrical ...

Its innovative two-part design installs easily around non-compliant cable tray penetrations, rapidly restoring fire resistance. Ideal for retrofit environments, the EZ Path Cable Tray Retrofit Device ...

Cable trays and busways at floor level or at slab penetrations shall have a waterstop no less than 50 mm in height. At slab penetrations, provide 20-30 mm of firestopping and install a fire ...

The Daken Fire-Resistant Cable Tray (DFCT) is a new-generation cable protection system that integrates fire resistance, structural load-bearing capacity, and ventilation into one single solution.

Compare fire wrap and intumescent coating for cable trays by performance, ATEX suitability, climate durability, installation, maintenance, and cost—plus a practical selection checklist.

Cable tray fires can cause extensive operational disruption if not contained quickly. Orbis® DLP systems provide early detection and immediate ...

Engineered for continuous monitoring and early warning, our cable-based detection system is ideal for protecting cable trays—whether single-tier, multi-tier, or densely packed.

Fire protection solutions to protect cables, cable trays and cable systems. Discover our tested cable coatings and fire protection bandages!

For installations with old cable trays, implemented before present regulations, it is possible to apply the Tecbor® Joint Paste on sections of one meter and at crossing points of different ...

Direct Low Pressure (DLP) fire suppression systems offer a proactive solution for protecting cable trays and trenches. These systems utilize a heat-sensitive detection tube installed ...
