

Optical Power Meter 1310

Optical Power Meter 1310

This Power Meter and 1310 Laser Light Source Fiber Optic Test Kit was designed to provide the test technician with an inexpensive, accurate, and easy to use infrared light reference for use in making ...

The OPM510 and OPM520 supports wavelengths of 850, 980, 1270 1300, 1310, 1490, 1550, 1577, 1623 and 1650nm. The rugged enclosure provides confidence when testing singlemode and multimode ...

SMARTFiber is a four wavelength (850nm, 1300nm, 1310nm, 1550nm) Fiber Optic Power Meter used for measuring the optical power from fiber optic cabling systems. It includes interchangeable connectors ...

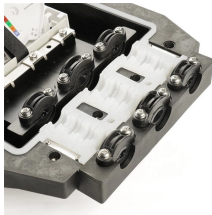

The L-com FOTM-OPM-AH is a handheld, multi-wavelength power meter. The FOTM-OPM-AH features a single channel design, with the ability to handle higher-powered inputs over seven (7) commonly ...

Combining optical source and optical power meter in one, Optical Power Multi Meter is a portable and intelligent instrument for optical network test. There are inner 1310nm and 1550nm dual wavelength ...

The L-com FOTM-OPM-AH is a handheld, multi-wavelength power meter. The ...

Buy RBOPM-500: multi-wavelength optical power meter ...

Buy RBOPM-500: multi-wavelength optical power meter (850/1300/1310/1490/1550/1625nm) with memory storage, USB data transfer, and auto-wavelength recognition for accurate fiber testing.

Optical Power Meters help identifying connectivity issues and determine potential under or over budgeting of the optical power available. RBOPM-500 has a color TFT display and features an USB ...

AFL Global OPM 4-3D Optical Power Meter simultaneously tests and displays two wavelengths when used with proper optical light source. It also contains an auto zero function allowing for quicker ...

The OPM and CSM1 optical power meters are offered in a variety of formats. Users can select from several wavelengths and detector types, as well as optional PC software.

The standard SMARTFiber with two wavelengths is an easy to use and lightweight fiber optic power meter that measures the power of light transmitting from an optical fiber. The SMARTFiber includes ...
