

Outdoor constant temperature cabinet for dedicated power grid

Overview

Outdoor Integrated Cabinet Monitoring System featuring constant temperature control, galvanized steel construction, and double wall design for enhanced durability and performance. To this end, Rittal offers you a portfolio of secure and robust outdoor enclosures, together with matching climate control systems, for optimum protection of your installations. A modular system of standard products permits configuration of an individual solution. Deliveries within 24 hours secure. The ETON series constant temperature cabinet has high comprehensive protection performance and is an outdoor constant temperature cabinet that integrates a dynamic environmental monitoring system and a dedicated cold and hot air conditioner. In addition to traditional cooling methods, Delta's new hybrid cooling options revolutionize the cost structure of thermal management. Our flexible all in one outdoor cabinet solutions allow: - to offer the most energy optimized solution by using the most efficient power supply and climatization systems in a fully integrated system - to reduce launch time of a cell site with a pre-configured platform completely ready for active. We offer a wide range of Cabinet Monitoring System products and can tailor-make solutions and products according to your

specific needs. You are welcome to inquire via email or WhatsApp, and we will be happy to assist you.
