

## Power supply for H3C9850 fiber optic switch

### Overview

The S9850 series switch provides multiple reliability protection at both switch and link levels. With over current, overvoltage, and overheat protection, all models have a redundant pluggable power module, which

## Power supply for H3C9850 fiber optic switch

The entire switch supports fault detection and alarm for power supply and fan, allowing fan speed to change to suit different ambient temperatures. • The switch supports diverse link redundancy ...

The S9850 series switch provides multiple reliability protection at both switch and link levels. With over current, overvoltage, and overheat protection, all models have a redundant pluggable power module, ...

The switches are equipped with modular power supplies and fan modules. By installing various fan modules, the switches can change the airflow direction directly at the installation site.

The S9850 switch series provides multiple reliability protection at both switch and link levels. With over current, overvoltage, and overheat protection, all models have a redundant pluggable power module, ...

With over current, overvoltage, and overheat protection, all models have a redundant pluggable power module, which enables flexible configuration of AC or DC power modules based on actual needs.

The H3C S9850 Series Data Center Switches are high-density intelligent switches designed for data centers and cloud computing networks, offering up to 32\*100G ports and modular power supplies.
