

Ppm Company Optical Receiver

Ppm Company Optical Receiver

PPM Systems works with customers to understand their requirements and develop a complete solution that meets their needs. Solutions are typically derived from PPM's range of COTS products, which ...

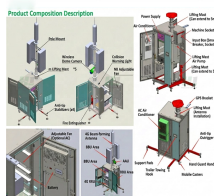

PPM Systems specialises in: RF over fibre systems (SIGINT and COMINT), antennas and stacked antenna systems, software-defined radio, RF filtering and conditioning, EM spectrum and decoding ...

PPM is a leading supplier of fiber optic links for the broadcast and communications industry. Our ViaLite products are used in teleports and earth stations around the world and in other facilities where it is ...

fotonX (ARx-Kx family) is PPM's range of modular optical routing solutions used for a variety of applications, from large static satellite communication data centres to compact mobile platforms.

1-48 of 109 results for "spektrum ppm receiver"
Results Check each product page for other buying options.

In this article, the requirements and design of a prototype pulse-position modulation (PPM) receiver are considered.

PPM's Sentinel & Sentry range is the industry's choice for high quality and high performance antenna & probe remoting applications. Sentinel, Sentry and point2point modules are available in ...

PPM Systems designs and manufactures RF over fibre systems. Carrying RF signals over fibre has many advantages. It is light-weight and man portable, and offers wide bandwidth and EMC & EMP ...

Point-to-Point links are available in stand alone and modular rack versions and can be supplied with EMI shielding for operation in harsh electrical environments. PPM's p2p modules cover from 5MHz to ...

There have been significant interests from NASA in integrated optical transceiver chips for near-earth space optical communications utilizing Pulse Position Modulation (PPM) scheme, ...
