

Price of thin shielding plate for distribution boxes

Overview

Upgrade your electrical panel with universal circuit breaker filler plates. Durable plastic construction keeps out dust and debris for a neat, protected look. Lightweight, flexible, and effective. The Shieldene Magnetic Shield Plate is the perfect solution for anyone needing a magnetic shielding plate for breaker box or other. Magnetic field shielding foil for screening any static or alternating magnetic field. Common shielding materials include aluminum, copper, tin, epoxy and ferrite powders, gold fabric, nickel, nitrile and forms of polyester. You can stack multiple shims to achieve your exact thickness, but stacking more than four may cause them to shift. Remember, fewer shims are better, so. We offer shearing services to cut blanks to the sizes you need. MuMETAL® is our most widely known brand, yet Magnetic Shield Corporation offers several other alloys which are used for similar, but different applications. MuMETAL® Stress Annealed sheet is used primarily in low intensity fields where.
