

Purchase an 800G transimpedance amplifier

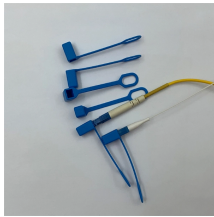

Purchase an 800G transimpedance amplifier

Analog Devices' optical and logarithmic transimpedance amplifiers (TIAs) offer high performance, single-chip solutions for precise photodiode current-to-voltage conversion.

Explore the RG8G31420 quad-channel, 128Gbaud linear transimpedance amplifier for 800Gbps and beyond ICR, IC-TROSA, and optical modules.

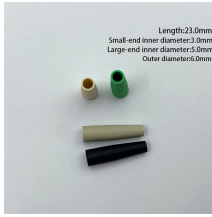

Transimpedance amplifiers are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for transimpedance amplifier manufacturers including Analog ...

Marvell's transimpedance amplifiers (TIAs) ushered in the era of 100G and 200G networking and continues its market leadership with 400G, 800G, and beyond.

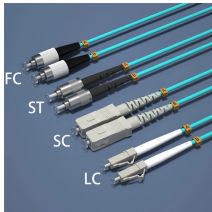

MACOM's optoelectronics products include a wide range of transimpedance amplifiers (TIA) for line and client side fiber optic receivers up to 1.6 Tbps . Our portfolio includes linear TIAs for coherent and ...

Our high-bandwidth transimpedance amplifier (TIA) portfolio includes devices with variable gain settings, fast recovery time, internal input protection and fully differential outputs that are optimized for a wide ...

With solutions optimized for both established architectures and next-generation 800G and 1.6T transceivers, Coherent helps system designers scale performance while maintaining power efficiency.

Shop DigiKey's large in-stock selection of Instrumentation, Op Amps, Buffer Amps. View inventory, pricing and order now for same day shipping!

Semtech Unveils FiberEdge® Octal Linear Transimpedance Amplifier for 800G and 1.6T Data Center Applications New transimpedance amplifier (TIA) solves space challenges in 100G/lane single mode ...

Powering the fastest networks on the planet: Marvell's transimpedance amplifiers (TIAs) ushered in the era of 100G and 200G networking and continues its market leadership with 400G, 800G, and beyond.
