

Slovenia Custom Pigtail Channel

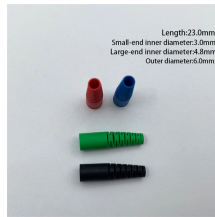

Overview

Pig-tails are made from Reichle & De-Massari E2000 connectors or from Huber and Suhner LX5 connectors and 0.9mm buffered Corning OS2 fiber. Testing includes a visual inspection with microscope, IL and RL measurements, and geometry testing with interferometer. The importance of MS (Mild Steel) and SS (Stainless Steel) Channels in Slovenia lies in their versatility and structural strength for various construction applications. MS Channels are commonly used for providing structural support in buildings, bridges, and industrial structures due to their high strength. As established Steel Channel Pipe Manufacturers in Slovenia, production focuses on pipes that meet these performance expectations through rigorous engineering and high-grade material selection. Each steel channel pipe developed in Slovenia is manufactured with controlled processes to ensure quality. Specially made metal parts to fulfil your set of requirements for laser, auto, power technologies and more.

Slovenia Custom Pigtail Channel
