

Various models of optical cable traction machines and cable conveyors

Various models of optical cable traction machines and cable convey

With technology as the primary productivity, Clusterasia Corp offers an efficient, time-saving and labor-saving cable tractor that solves a major problem in cable construction.

It is used for long distance transmission of large section cable, especially suitable for long distance laying of various types of cables such as tunnel, pipe row, directly buried, etc.

These various models are designed to match different laying environments and ensure efficient and safe traction of optical cables.

After years of research and development& comma; improvement& comma; testing& comma; and extensive user verification& comma; the fiber optic cable traction machine adopts a built-in ...

Optical cable traction machines are widely used in optical fiber communication, power, and municipal engineering for cable laying and construction. They can lay up to 288-core optical cables in ...

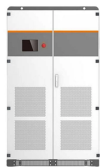

Find reliable fiber optic cable pulling machines for efficient cable management. Shop our range of durable, high-performance solutions for various applications.

It is used for long distance transmission of large section cable, especially suitable for long distance laying of various types of cables such as tunnel, pipe row, directly buried, etc.

It includes radial locking gripper, mesh cable sock gripper, anti twist tension stringing tool, self-moving traction machine, block recover damper machine, cable replacement double pulley, OPGW cable ...

From large, fully-synchronised Power Cable and Telecoms Fibre Optic back-deck lay and repair systems through to simple lightweight cable transporters, Parkburn takes pride in the services and equipment ...

Optical cable traction machines are widely used in optical fiber communication, power, and municipal engineering for cable laying and construction. They can lay ...

Length:14.5mm
Small-end inner diameter:2.0mm
Large-end inner diameter:3.5mm
Outer diameter:5.2mm

It is used for long distance transmission of large section cable, especially suitable for long distance laying of various types of cables such as tunnel, pipe row, directly ...

Find your cable conveyor easily amongst the 8 products from the leading brands (OCA, VAC-U-MAX, Okura, ...) on DirectIndustry, the industry specialist for your professional purchases.
