

What to do if the AI diagnostic server malfunctions

Overview

- Make sure firewalls or other security solutions are not blocking the connection to the AI server – if this looks to be the case, get in touch with the customer's IT to create an exception.
- Reboot the PC – sometimes the solution is as simple as that. Is the AI integration even being installed?

Please go to Windows Settings -> Apps and search the list for “coDiagnostiX”. In this comprehensive report, we analyze the cybersecurity requirements for AI-enabled medical devices from multiple perspectives: regulatory frameworks, technical standards, threat landscape, and real-world case studies. You need a Pro Plus or Enterprise Plus SKU to use AI Agents. This guide outlines common error messages and actionable steps to troubleshoot them.
